Take Heart CV Team Symposium

Monday, April 3, 2017
Schoolcraft College - VisTaTech Center
Livonia

The Michigan Chapter of the American College of Cardiology and the Michigan Pharmacists Association offer this one day symposium designed for nurse practitioners, nurses, physician assistants, pharmacists and all members of the cardiovascular care team.

PARTICIPANTS WILL:

- Enhance their understanding of the scope and intent of the new ACC/AHA guidelines for heart failure and atrial fibrillation.
- Learn about treatment options including new pharmacological therapies for heart failure, new options for afib patients with bleeding risks, and the role of ablation.
- Develop strategies for shared decision-making with patients, including the use of risk score calculators.
- Explore screening, management and treatment options for cardiovascular patients with diabetes with a focus on medication.
- Learn how to screen for depression and understand how to treat and when to refer these challenging patients.

Registration will open soon...watch your email for announcements!

Michigan ACC Members, MPA Members and VA Employees: \$70

Students: \$40

Others: \$90

Includes breakfast, lunch, course materials and exhibits.

Questions on registration, exhibits, or continuing education credits?
